Material Safety Data Sheet

SECTION I CHEMICAL and COMPANY IDENTIFICATION

PRODUCT: *MERROX[®] P-5521 Powder(also called DLD)*
CHEMICAL NAME: *Dibasic acid polyester wetted powder mixture*
COMMON/GENERIC NAME: *Polymeric plasticizer dispersion with silica*
CHEMICAL FAMILY: *Polyester*
MANUFACTURER: MERRAND INTERNATIONAL CORP. Customer Service 603-279-5216
DISTRIBUTOR: HB CHEMICAL CO., Akron, OH 800-991-2436
EMERGENCY NUMBERS: CHEMTREC 800-424-9300 CANUTEC(Canada) 613-996-6666

SECTION II COMPOSITION / INGREDIENT INFORMATION

	<u>OSHA PEL</u>	<u>ACGIH TLV</u>
COMPOSITION: Mixed dibasic acid polyester : 72%	None	No data
C.A.S.# Proprietary	established	found
Silica, 28%	10 mb/M ³ (total dust)	
C.A.S.# 7631-86-9		

SECTION III/IV HAZARDS / FIRST AID PROCEDURES

EMERGENCY OVERVIEW: A white/buff-colored, free flowing powder that may be harmful if swallowed or absorbed through the skin. Can be irritating to mucous membranes. Not considered hazardous.

EYE: Can be irritating to mucous membranes and eyes. Flush eyes with water for 15 min. Call a physician if irritation develops.

SKIN: May be mildly irritating to skin. Remove contaminated clothing and wash skin with soap and water. If in contact with hot product, treat as a burn.

INGESTION: Do not ingest. Do not induce vomiting but wash out mouth. Never give anything by mouth to unconscious person. Seek medical attention.

INHALATION: Remove to fresh air; give artificial respiration or oxygen if necessary.

TOXICITY: No significant adverse effects expected. Not considered toxic/hazardous.

CARCINOGENICITY: Not listed by NTP, IARC or OSHA

IN ALL CASES OF EMERGENCY, CONTACT A PHYSICIAN

SECTION V FIRE AND EXPLOSION INFORMATION

FLASH POINT 288°C (550°F) Closed Cup

FIRE-FIGHTING PROCEDURES: Use Chemical foam, CO₂, Dry Chemical, water fog.

HAZARDOUS COMBUSTION PRODUCTS: This product will decompose under extreme temperatures forming oxides of carbon.

PROTECTIVE EQUIPMENT: Full eye protection and protective clothing are required for all indoor/outdoor fires and spills.

Corporate Office:
P.O.Box 858

SECTION VI SPILLS AND ENVIRONMENTAL INFORMATION

SPILL OR LEAK PRECAUTIONS: Wear appropriate protective clothing, gloves and equipment. Contain spill and sweep up. Transfer to secure containers and dispose of according to local and state regulations. Thought should always be given to collecting the material in such a manner that it could be recycled. Clean/scrub affected area with detergent. Prevent run-off into sewers or natural waterways. Spills in excess of the RQ must be reported to the local emergency response organizations. Major spills should also be reported to the National Response Center. Spills with potential to contaminate coastal waterways must be reported to the U.S. Coast Guard (800-424-8802)

WASTE DISPOSAL: All containers should be effectively labeled to facilitate the appropriate disposal or reclaim.

SECTION VII HANDLING AND STORAGE

Store in sealed containers in dry, ambient temperature conditions.

SECTION VIII EXPOSURE CONTROLS AND PERSONAL PROTECTION

VENTILATION: Use only where sufficient ventilation exists to keep exposure levels of fumes and dust below recommended levels.

RESPIRATORY AND PERSONAL PROTECTION: Respirators should be selected when TWA exceeded. Avoid hot vapors when mixing or packaging. Safety glasses with side shields; gloves, boots and apron as appropriate.

FACILITIES: There should be a shower facility and eyewash in the building where this product is being stored and handled. Exercise good chemical handling practice.

SECTION IX PHYSICAL AND CHEMICAL INFORMATION

Appearance: White/buff colored powder	Evaporation Rate: << 1 (butyl acetate=1)
Specific Gravity @25°C = 1.26	Boiling Point: Not Determined
Vapor Pressure: ND	Refractive Index 25°C: Not Determined
Viscosity cPs (25°C) = NA	Solubility in Water: Nil

SECTION X STABILITY AND REACTIVITY

Under normal storage conditions, this product a) is stable; b) will not polymerize or exotherm; c) should be kept away from extreme heat, strong oxidizers and bases; d) this product decomposes under high temperature and hydrolyses in humid conditions.

SECTION XI TOXICOLOGICAL INFORMATION

Not Determined

SECTION XII ECOLOGICAL INFORMATION

ENVIRONMENTAL DATA: No information available.

Corporate Office:
P.O.Box 858
Meredith, NH 03253

SECTION XIII

DISPOSAL CONSIDERATIONS

Incineration by a permitted hazardous waste facility in accordance with all regulatory requirements is the preferred method of disposal. Empty containers can be rinsed with a suitable solvent/surfactant and steamed to remove residual product and fumes before disposal or reuse in accordance with applicable regulations. For spill clean-up procedures see Sect.VI.

SECTION XIV

TRANSPORTATION INFORMATION

DOT: Not restricted. Label: Product trade name with chemical description.

INTERNATIONAL: IMO: Non-hazardous. Label: Product trade name with chemical description.

AIR (IATA/ICAO): Non-hazardous. Label: Product trade name with chemical description.

EUROPEAN TRANSPORTATION: ADR/RID HAZ. CLASS: Not Determined.

US CUSTOMS: - HARMONIZED TARIFF CODE: 2917.19.70.20

SECTION XV

REGULATORY INFORMATION

OSHA: Non-hazardous

SARA TITLE III: - 311/312 CATEGORIES: Non-hazardous.

“ “ - 313 Reportable ingredients: None

CERCLA RQ: Not applicable.

RCRA Status: Not known

TSCA REGULATORY: All intentional ingredients are listed in the TSCA Inventory.

CANADA WHMIS HAZARD SYMBOL AND CLASS: Not Regulated

CANADA INGREDIENT DISCLOSURE LIST: Does not contain any ingredients on the IDL. All intentional ingredients are on the DSL.

SECTION XVI OTHER INFORMATION

HMIS Label: Health: 1
Fire: 1
Reactivity: 0
Protection: C

Prepared: July. 26, 2005 (PCR)

The information presented herein, while not guaranteed, was prepared by technically knowledgeable personnel and to the best of our knowledge is true and accurate. It is not intended to be all inclusive and the manner and conditions of use and handling may involve other or additional considerations.
