<u>Notes to physician:</u>	Treat symptomatically.

### 5. Fire-Fighting Measures

<u>Flash point (°C):</u>	>260(500 °F) Method: COC
<u>Suitable Extinguishing Media:</u>	Use dry chemical, CO2, water spray or "alcohol" foam. Do not use a solid water stream as it may scatter and spread fire.
<u>Special Fire Fighting Procedures:</u>	As in any fire, wear self-contained breathing apparatus (pressure-demand, NIOSH approved or equivalent) and full protective gear.
<u>Hazardous decomposition products Under fire conditions:</u>	Carbon oxides. Metal oxides. CaO.
<u>Unusual fire and explosion hazards:</u>	Avoid dust formation. Dust may form explosive mixture in air.

### 6. Accidental Release Measures

<u>Personal precautions:</u>	Avoid dust formation. Do not breathe vapors/dust. Remove all non-essential people from the affected area. Ensure adequate ventilation. In case of insufficient ventilation, wear suitable respiratory equipment. Avoid contact with skin, eyes and clothing. Wear personal protective equipment.
------------------------------	--

<u>Environmental precautions:</u>	Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Do not flush into surface water or sanitary sewer system. Do not allow material to contaminate ground water system.
<u>Methods for cleaning up:</u>	Wear personal protective equipment. Sweep up and shovel into suitable containers for disposal. Clean contaminated surface thoroughly. Dispose of promptly.
<u>Waste Disposal:</u>	Reclaim or dispose of in accordance with local, state, and federal regulations

<b><u>7. Handling and Storage:</u></b>	
<u>Handling:</u>	Avoid dust formation. Fine dust dispersed in air may ignite. Do not breathe vapors/dust. Handle in accordance with good industrial hygiene and safety practice. Use only in area provided with appropriate exhaust ventilation. In case of insufficient ventilation, wear suitable respiratory equipment. Avoid contact with skin, eyes and clothing. Wear personal protective equipment. Do not eat, drink or smoke in areas of use or storage. Do not take internally. Wash thoroughly after handling.
<u>NFPA:</u>	Refer to NFPA 654, Standard for the Prevention of Fire and Dust Explosions from the Manufacturing, Processing, and Handling of Combustible Particulate Solids, for safe handling.
<u>Storage:</u>	Keep in a dry, cool and well – ventilated place.

<b><u>8. Exposure Controls / Personal Protection</u></b>		
<u>Exposure Limits:</u>	Minimize exposure in accordance with good hygiene practice.

<u>Engineering measures:</u>	Provide appropriate exhaust ventilation at machinery and at places where dust or fumes can be generated. Ensure that eyewash stations and safety showers are proximal to the work station location. Ensure adequate ventilation, especially in confined areas.	
<u>Respiratory Protection:</u>	In case of insufficient ventilation, wear suitable respiratory equipment. NIOSH-approved respirators should be worn where engineering controls and work practices do not reduce	

	exposure to or below the PEL. Seek professional advise prior to respirator selection and use.
<u>Protective Gloves:</u>	Impervious gloves. Follow the recommendations given by the manufacturer of protective gloves.
<u>Eye Protection:</u>	Safety glasses with side-shields.
