

Safety Data Sheet (SDS)

Revision / Review Date: 4/17/15

1. Chemical Product and Company Identification

Product Name: Distributed By:

MSDS Prepared By (w Suppliers Input): Chemical Name / Family: CAS No: Product Use: OSHA Status Magox Super Premium HB Chemical 1665 Enterprise Parkway Twinsburg Oh 44087 Phone - 330-920-8023 HB Chemical Magnesium Oxide 1309-48-4 Chemical intermediate. Not Hazardous

For emergency health, safety, and environmental information, calls 330-920-8023 For emergency transportation information, in the United States: call CHEMTREC at 800-424-9300

2. Hazard(s) Identification	
<u>Classification OSHA regulatory Status:</u>	Product dust is classified as a "nuisance particulate, not otherwise regulated" as specified by ACGHI and OSHA. The excessive long-term inhalation of mineral dust may contribute to the development of industrial bronchitis, refused breathing capacity and may lead to the increased susceptibility to lung diseases. The chemical is not considered hazardous by the 2012 OHSA hazard Communication standard (29 CFR 1910.122).
Emergency overview:	Not a dangerous substance or mixture according to the Globally Harmonized System. The product contains no substances which at their given concentration, are considered to be hazardous to health.
Medical Conditions Generally Aggravated by Exposure:	
Eye Contact:	Causes mild irritation to the eyes.
Skin Contact:	Low toxicity by skin contact.
Inhalation:	Chronic overexposure by inhalation of airborne particulate may irritate upper respiratory system as well as the throat.
Ingestion:	An unlikely route of exposure. If ingested in sufficient quantity may cause gastrointestinal disturbances. Symptoms may include irritation, nausea, vomiting and diarrhea.

HB Chemical 1665 Enterprise Parkway Twinsburg, Ohio 44087 Phone 330-920-8023 Fax 330-920-0971 www.hbchemical.com Unknown Acute Toxicity 100% of the mixture consists of ingredients of unknown toxicity.

3. Composition / Information on Ingredients				
Common Name	Magnesium Oxid	e		
Synonyms	Light burned ma	Light burned magnesium Oxide, Caustic Calcined Magnesia,		
	MgO, Magnesiur	n Oxide.		
Chemical Name	CAS No.	Weight-%	Trade Secret	
one mean rame	1309-48-4	100	Trade Decret	

4. First Aid Measures		
Inhalation:	Remove to fresh air. If breathing has stopped, give artificial respiration. Get medical attention immediately.	
<u>Eyes:</u>	Rinse thoroughly with plenty of water, also under the eyelid. Get medical attention immediately if irritation persists.	
<u>Skin:</u>	Wash skin with a soap and water.	
Ingestion:	Not an expected route of exposure. Drink 1 or 2 glasses of water. Never give anything by mouth to an unconscious person. Do not induce vomiting without medical advice. Immediate medical attention is required.	
Most important symptoms and effects, both	acute and delayed	
Symptoms:	No information available.	
Indication of any immediate medical attention and special treatment needed		
Note to physicians:	Treat symptomatically.	

5. Fire-Fighting Measures	
Unsuitable Extinguishing Media:	Water reacts with magnesium oxide producing magnesium hydroxide and heat. Do not allow water to get inside containers: reaction with water will cause product to sell, generate heat, and burst its containers. If contact is unavoidable, use sufficient water to safely absorb the heat that may be generated. Wetted product is not a health of environmental hazard.
Special hazards arising from the chemical.:	No information available.
Explosion data: Sensitivity to Mechanical Impact/Static Discharge:	None.
Protective equipment and precaution for firefighters:	As in any fire, wear self-contained breathing apparatus
HB Chemical 1665 Enterprise Parkway Twinsburg, Ohio 44087	

emical 1665 Enterprise Parkway Twinsburg, Ohio Phone 330-920-8023 Fax 330-920-0971 www.hbchemical.com pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. Accidental Release Measures	
Personal precautions:	Ensure adequate ventilation, especially in confined areas.
Environmental precautions:	See section 12 for additional ecological information.
Methods for containment:	Prevent further leakage or spillage if safe to do so.
<u>Methods for cleaning up:</u>	Carefully clean up and place material into a suitable container, being careful to avoid creating excessive dust from dried product. If conditions warrant, clean up personnel should wear approved respiratory protection, gloves and goggles to prevent irritation from contact and/or inhalation.

7. Handling and Storage:	
Precautions for safe handling:	Use personal protective equipment as required.
Storage Conditions:	Keep container tightly closed in a dry and well ventilated place. Avoid generation of dust. Do not allow contact with water.
Incompatible Materials:	Interhalogens, bromine pentafluoride, chlorine trifluoride. Contact with aluminum metal may release hydrogen gas. Incandescent reaction with phosphorus pentachloride. Water will react with magnesium oxide to form magnesium hydroxide and release heat and steam.

8. Exposure Controls / Personal Protection

Exposure Controls:

This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.

Chemical Name	ACGIH TLV	OSHA PEL	NIOSH IDLH
Magnesium Oxide 1309-48-4	TWA: 10 mg/m ³ inhalable fraction	TWA: 15 mg/m ³ fume, total particulate (vacated) TWA: 10 mg/m ³ fume and total particulate	IDLH: 750 mg/m ³ fume
IOSH IDLH Provide worker kposure incurred.	s with NIOSH approved respirators ir	accordance with requirements of	29 CFR 1910. 134 for level o
opropriate engineering c	ontrols: Pro	ovide sufficient ventilation, in b	oth volume an air flow

patterns to control mist/dust concentrations below allowable exposure limits. Showers, Eyewash station.

Respiratory	Protection:

Provide workers with NIOSH approved respirator in accordance with 29 CFR 1910.134 for level of exposure incurred.

Eye Protection:

Skin and Body Protection:

Avoid contact with eyes. The use of eye protection is recommended.

Wash hands thoroughly after handling.

The use of eye protection, Gloves and long sleeve clothing is recommended.

General Hygiene considerations:

9. Physical and Chemical Properties

Physical state Appearance Odor Color Odor threshold

Property

No information available No information available No information available No information available 20-35 lb. / ft3

10. Stability and Reactivity	
Reactivity:	No data available.
<u>Stability:</u>	Stable under recommended storage conditions.
Possibility of Hazardous Reactions:	None under normal processing.
Hazardous Polymerization:	Hazardous polymerization does not occur.
Incompatibility (Materials to Avoid):	Interhalogens, bromine pentafluoride, chlorine trifluoride. Contact with aluminum metal may release hydrogen gas. Incandescent reaction with phosphorus pentachloride. Water will react with magnesium oxide to form magnesium hydroxide and release heat and steam.
Conditions to Avoid:	Extremes of temperature and direct sunlight.
Hazardous Decomposition Products:	Heat and steam

11. Toxicological Information		
Information on likely routes of exposure		
Product Information:	Magnesium Oxide CAS# 1309-48-4	
Inhalation:	Inhalation of fume (not MgO dust particulate) produced upon decomposition of magnesium compounds can produce a febrile reaction and leukocytosis in humans.	
Eye contact:	No data available.	
Skin Contact:	No data available.	
Ingestion:	No data available.	
Information on toxicological effects		
Symptoms	No information available.	
Delayed and immediate effects as well as chronic effects from short and long-term exposure		
Sensitization	No information available.	
Germ cell mutagenicity	No information available.	
Carcinogenicity	No information available.	
Reproductive toxicity	No information available.	
STOT - single exposure	No information available.	
STOT - repeated exposure	No information available.	
Aspiration hazards	No information available.	
Numerical measures of toxicity- Product Information		
Unknown Acute Toxicity:	100% of the mixture consists of ingredient(s) of unknown Toxicity.	

HB Chemical 1665 Enterprise Parkway Twinsburg, Ohio 44087 Phone 330-920-8023 Fax 330-920-0971 www.hbchemical.com

12. Ecological Information	
Ecotoxicity:	No data available on any adverse effects of this material on the Environment. 100% of the mixture consists of components(s) of unknown hazards to the aquatic environment.
Persistence and degradability:	No information available.
Bioaccumulation:	No information available.
Other adverse effects:	No information available.

13. Disposal Considerations	
Disposal of Wastes:	This produce does not exhibit any characteristics of a hazardous waste. The product is suitable for landfill disposal once the free water component is evaporated or absorbed by a suitable absorbent (earth). Follow all applicable federal, state and local regulations for safe disposal.
Contaminated packaging:	Do not reuse container.

14. Transport Information	
D.O.T. Shipping Name	Not regulated
Air - ICAO (international Civil Aviation Organization)	Not regulated
Sea - IMDG (International Maritime Dangerous Goods)	Not regulated
